## Market Time

The average Days On Market (DOM) shows how many days the average Property is on the market before it sells. An upward trend in DOM tends to indicate a move towards more of a Buyer's market, a downward trend a move towards more of a Seller's market. The DOM for December was 143, up 21.2% from 118 days last month and down 15.9% from 170 days in December of last year. The December 2011 DOM was at a mid level compared with December of 2010 and 2009.

## Selling Price per Square Foot

The Selling Price per Square Foot is a great indicator for the direction of Property values. Since Median Sales Price and Average Sales price can be impacted by the 'mix' of high or low end Properties in the market, the selling price per square foot is a more normalized indicator on the direction of Property values. The December 2011 Selling Price per Square Foot of \$179 was down 2.7% from \$184 last month and down 24.9% from 238 in December of last year.

## Selling Price vs Original Listing Price

The Selling Price vs Original Listing Price reveals the average amount that Sellers are agreeing to come down from their original list price. The lower the ratio is below 100% the more of a Buyer's market exists, a ratio at or above 100% indicates more of a Seller's market. The December 2011 Selling Price vs Original List Price of 91.8% was up from 91.7% last month and down from 93.0% in December of last year.
